

RODOLFO OLIVARES

(+61) 447087841 - Perth, Australia - rolivaresal@gmail.com - linkedin.com/in/rodolivaresa - rolivaresia.github.io

Data Analyst with 2 years of experience and a strong foundation in statistical analysis, predictive modeling, and process automation. Proficient in Python, SQL, and BI tools with a proven ability to bridge the gap between complex datasets and actionable business insights. Highly motivated to apply technical skills to optimize workflows and support data-driven decision-making in an entry-level professional capacity.

PROFESSIONAL EXPERIENCE

Claro Chile | Santiago, Chile2025 - 2026

Data Analyst - Business & Churn Analytics

- Analyzed customer data to identify churn drivers and improve retention, incorporating behavioral signals to detect segments with up to ~5x higher churn probability.
- Segmented customers based on churn risk to optimize targeted retention strategies.
- Implemented A/B testing (control and treatment groups) to measure retention campaign performance.
- Evaluated marketing campaigns through statistical analysis, identifying conversion variations of up to ~35% among customer segments.
- Developed and automated churn, customer behavior, and competitor reports, reducing operational analysis and execution times by up to ~65%.
- Redesigned a low-quality sales KPI using a classification model (decision trees), improving commercial segmentation precision for prioritization.

Salinas y Fabres | Santiago, Chile2021 - 2022

Business Analyst - Telematics Analytics

- Produced strategic reports to monitor key performance indicators and support decision-making.
- Led a corporate telematics data integration project, improving internal coordination and collaboration with clients.
- Analyzed data to identify opportunities such as failure prediction and after-sales service optimization.
- Managed stakeholder relationships, providing support and training while aligning technology with business objectives.

Principal Financial Group | Santiago, Chile2019 - 2020

Data Analytics Intern - Retirement Readiness

- Analyzed pension and retirement data to generate actionable financial insights and support retirement planning strategies in client portfolios.
- Automated and optimized reporting processes using VBA and SQL, improving operational efficiency and reducing delivery times by 85.3%.
- Collaborated with financial analysts and advisors to improve report quality and support data-driven decision-making in retirement planning.

EDUCATION

Pontificia Universidad Catolica de Chile

- Postgraduate diploma in Artificial Intelligence2025
- Postgraduate diploma in Data Science2021

Universidad Adolfo Ibañez

- Bachelor of Science in Engineering (Industrial Engineering)2014 - 2020

SKILLS

Data Analytics & BI: Power BI, Looker Studio, Tableau, Statistical Analysis, A/B Testing

Data Science & ML: Python (Pandas, Scikit-Learn), R, Machine Learning, Deep Learning, Web Scraping

Data Engineering & Cloud: SQL, Google Cloud Platform (GCP), Git

Business & Tools: Microsoft Office, Advanced Excel, Process Automation
